finely crafted for lasting style

LASTING STYLE

Tradewinds Aluzone parasols were designed to offer a modern lightweight yet strong parasol utilizing a modern mix of aluminium, stainless steel and the finest kiln dried Eucalyptus timber that is FSC (Forestry Stewardship Council) certified. High quality materials and workmanship ensure that Tradewinds parasols are the number one choice for corporate, private and promotional buyers.

FINELY CRAFTED

Stainless steel fitting are used for high durability and fabric options are naturally resistant to rotting and mildew, acids and alkalis and in addition, all fabrics are Teflon treated to provide water, oil and soil protection.

The combination of wood and aluminium is durable and attractive

The strut-to-strut joint is strong and will not allow pre-mature canvas wear

All components are made for easy replacement

The "sock" style pocket is double layered for added strength

The wood is certified by the Forestry Stewardship Council (FSC)

Our Standard canvasses are solution dyed, and include polymers sourced in Europe (including recycled materials) and woven in South Africa. All have a 3 year fade warranty, are water/oil/soil repellent and have additional protection from a Teflon coating. All are mould/mildew treated. All wear points are reinforced with heavy duty PVC and a large wind-vent maximises use in windy conditions.

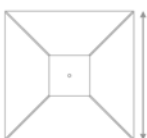

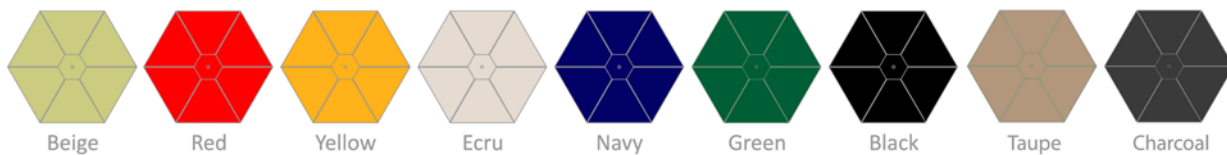

More than 20 'standard' colours are available - not all stocked in New Zealand. Other fabrics are available to order, including Sunbrella/Planosol on selected sizes.

GUARANTEE

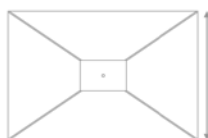

Our parasols are guaranteed, from original date of purchase by the original buyer, for a period of 2 years against defect in metal fixtures and fittings, and from faulty workmanship. Separate warranties apply on fabrics (minimum of 3 year against fade). Spares/Service back up is available for all Tradewinds products.

COLOUR OPTIONS

The NZ stock range varies by size, but most shown below are available. Refer our website for availability.
